Property Transfers to COMMO Field Supply Depots - Exception to Requirement for Property Authorization Certification

1. Under Tentative [] the Office of Logistics is required to fill requisitions for property only when requisitions include certification that property authorization is available (subparagraph 3b(2)). This provision is intended to apply to all issues of property from stock consistent with the coverage of the procedure set forth in paragraph 2 of the Handbook. It is not intended to relate to property transfers from Z.I. warehouses to field supply depots. Accordingly, you are requested to fill requisitions for such transfers between warehouses without requiring the property authorization certification.

2. Stock code symbols as indicated below have been established and will be utilized by the Office of Communications to identify property transfers of stock shipments to Communications field depots:

<u>Transfers To</u>	<u>Stock Code Symbol</u>
[]	

Requisitions showing such symbols should be filled promptly even though they do not bear the property authorization certification required by Tentative []
